

## Work Experience

### Software engineer internship

De Monfort University

October 2018 - December 2018

📍 Leicester, United-Kingdom

- Data analysis from sensors (gyroscope, accelerometer)
- Development of an Android application that targeting athletic people
- Working in collaboration with a startup ([Attis Fitness](#))

### Apprentice in IT, Network and Telecommunications

Thales Alenia Space

September 2017 - September 2020

📍 Cannes, France

- Automation of software and hardware validation of satellites test bench
- Wireless solution for satellites sensors

### IT Project manager assistant

Palais des festivals et des congrès de Cannes

July 2017 - August 2017

📍 Cannes, France

- IT support to user (L1-L2)
- Management of IT infrastructure

### Java development internship

Thales Alenia Space

April 2017 - June 2017

📍 Cannes, France

Internship at the end of the DUT  
Creation of a visualization tool for satellite tests data, written in Java.

### Clangue project

DGIProject

2013 - 2014

📍 Valbonne, France

Co-founder and developer of a project in collaboration with teachers

This project aim to propose an easy web platform to train them to new languages. The platform has an oral recording system, a qcm module, a written expression module and a video editing module.

This project mainly uses HTML5 technologies

## Education

### Engineering diploma in computer science networks and telecommunication (Master's degree equivalent)

Telecom Bretagne (IMT Atlantique)

2020

📍 Brest, France

IT, networks and telecommunication section (apprenticeship)

### DUT in Networks and Telecommunications (2 years university diploma equivalent)

IUT de Nice Sophia Antipolis

2017

📍 Sophia Antipolis, France

- Installation, configuration of workstations or any other equipment
- Software development (C, Python, Java, Web)
- Installation and maintenance of networking equipments (routers, switch, IPBX, servers, ...)

### Baccalauréat Général Scientifique ("A" Level in science)

Lycée Général Technologique Simone Veil

2015

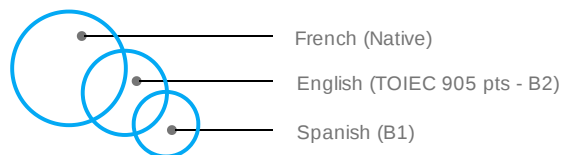

📍 Valbonne, France

- With honors

## Interests

- Photography
- Music
- New Technologies
- Travels

## Languages

## Projects

### CiGen (2018)

Configuration generator for continuous integration tools

### JDBC SQLite(2018)

Rebuild of the SQLite Java connector with database encryption support

### VideoEditorJs (2016)

A simple video editor in a webapp

### Clangue (2015)

High school language learning web platform

### DerGen (2014)

Genetic drift simulation web application ([Discover](#))
